

Science

Nursery

Nursery have been learning about growing using Jack and the Beanstalk. All children were provided with a bean and pot in their home learning packs to get growing at home.

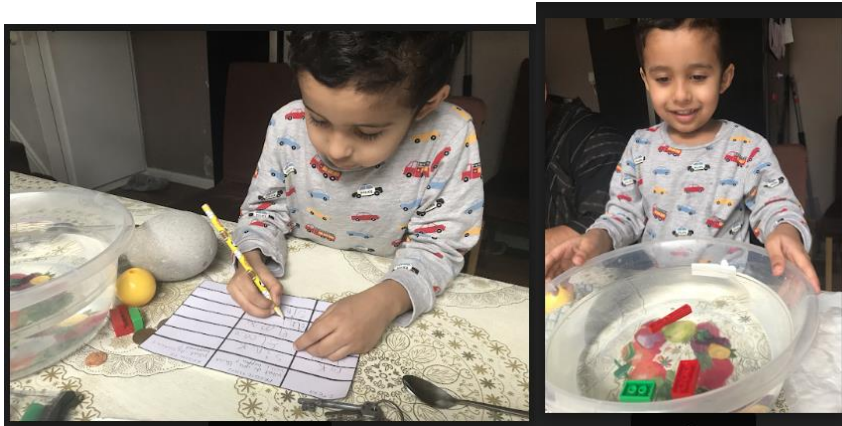

Reception

Reception have been learning about selecting the most appropriate materials. They investigated the most suitable materials for a Superhero cape.

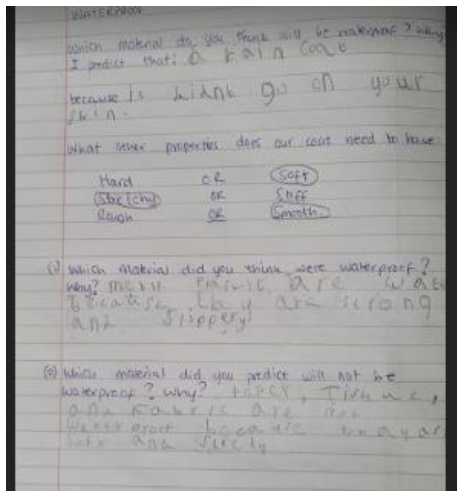

They have also been learning how to make predictions, by thinking about which materials might sink or float.

Year 1

Year 1 have been testing waterproof materials by finding out which material would be best for a raincoat. They made predictions and set up their own simple tests at home.

Year 2

Year 2 have been working hard testing the absorbency of different materials. They used their understanding of uses of materials to make predictions and conduct their own enquiries at home.
